Biomethane Gas to Grid  
Network entry connections

Detailed Design Services Request form

# Detailed Design Services.

Northern Gas Network have adopted an approach to support producers from 'cradle to grave' during the development of a biomethane gas to grid project. From this point onwards, Northern Gas Network will proactively work with the Producers while they identify, develop, construct and produce their sustainable locally sourced gas projects.

Please contact our Biomethane Team and they will inform you of the initiatives put in place to proactively support Producers and Developers to successfully flow gas into the network.

## Contact Us

For strategic advice and for gas to grid delivery process information / guidance please contact

Keith Warburton  
Key Account Manager  
Tel: 0771 159 4722

# Required Information

Please populate the table below with the information required to undertake the network capacity check.

Developer / Producer or Project Manager details	
<b>Company / Organisation</b> Name: Address:	<b>Contact Details</b> Name: Role: Tel: Email:
Gas to Grid Project Details	
<b>Name of Project</b>	<b>Site Location:</b>

Please confirm whether or not a Capacity Study has been undertaken on this project?

- Yes
- No

Please select and tick the NGN service(s) that you require.

- Detailed Design of the ROV, connection pipe and DN connection
